

**ALEC EXPOSED**

"ALEC" has long been a secretive collaboration between Big Business and "conservative" politicians. Behind closed doors, they ghostwrite "model" bills to be introduced in state capitols across the country. This agenda—underwritten by global corporations—includes major tax loopholes for big industries and the super rich, proposals to offshore U.S. jobs and gut minimum wage, and efforts to weaken public health, safety, and environmental protections. Although many of these bills have become law, until now, their origin has been largely unknown. With **ALEC EXPOSED**, the Center for Media and Democracy hopes more Americans will study the bills to understand the depth and breadth of how big corporations are changing the legal rules and undermining democracy across the nation.

**DID YOU KNOW?** Corporations VOTED to adopt this. Through ALEC, global companies work as "equals" in "unison" with politicians to write laws to govern your life. Big Business has "a VOICE and a VOTE," according to newly exposed documents. **DO YOU?**

**Resolution Concerning the Prohibition of Imported Prescription Drugs**

**WHEREAS**, the use of safe and legal prescription drugs improves the quality of care and helps patients live healthier, longer, and more productive lives while keeping them out of more costly acute care settings in the long term, and

**WHEREAS**, the Food, Drug, and Cosmetic Act (FDCA) governs the manufacture, sale, and distribution of drugs in interstate commerce, and under the FDCA, every new drug must be approved by the Food and Drug Administration (FDA) prior to marketing, and also under the FDCA, approvals are specific to each product, and all prescription drugs must be accurately labeled and may not be dispensed without an order from a licensed practitioner, and

**WHEREAS**, virtually all prescription drugs imported into the United States, other than those imported by the original manufacturer, pose serious safety concerns and violate these provisions of the federal law; such as those recently uncovered by a U.S. Customs and FDA investigation, which found that 88% (1,019 of 1,153) contained unapproved drugs, such as mislabeled, misbranded, expired, and mishandled drugs that might cause patient health problems, and

**WHEREAS**, the importation of drugs from foreign countries opens the currently secured distribution system established by the FDCA, thereby increasing the likelihood that counterfeit drugs, dangerous narcotics and deliberately contaminated material would endanger the health of U.S. citizens, and

**WHEREAS**, national pharmacy groups with a focus on patient health and safety have stated that the safety of imported drugs cannot be guaranteed and may result in patient harm, and

**WHEREAS**, the FDA's Personal Importation policy, which merely states as a matter of FDA enforcement discretion, an individual may import small quantities of drugs which are intended for serious conditions and which are not available domestically, does not alter the requirements of the federal law, and

**WHEREAS**, consumers victimized by imported drugs have included the most vulnerable patients including seniors, children, and the underserved.

**NOW, THEREFORE, BE IT RESOLVED** that the {insert state legislative body} supports the FDA's efforts to ensure the safety and quality of prescription drugs and opposes the illegal importation of non-FDA approved prescription drugs because of safety concerns.

Adopted by the HHS Task Force and approved by the ALEC Board of Directors in 2004.
