

ALEC EXPOSED

"ALEC" has long been a secretive collaboration between Big Business and "conservative" politicians. Behind closed doors, they ghostwrite "model" bills to be introduced in state capitols across the country. This agenda--underwritten by global corporations--includes major tax loopholes for big industries and the super rich, proposals to offshore U.S. jobs and gut minimum wage, and efforts to weaken public health, safety, and environmental protections. Although many of these bills have become law, until now, their origin has been largely unknown. With **ALEC EXPOSED**, the Center for Media and Democracy hopes more Americans will study the bills to understand the depth and breadth of how big corporations are changing the legal rules and undermining democracy across the nation.

Were your laws repealed?

Did you know that big pharma company Bayer Healthcare was the corporate co-chair in 2011?

Center for Media and Democracy's quick summary

This proposed legislation would prohibit the legislature from requiring individuals to purchase health insurance (or imposing penalties for not purchasing insurance). This bill would directly attack the foundations of the Affordable Care Act ("Obamacare"), the "individual mandate."
